

ZERO ENERGY BUILDING LEARNING CENTRE SCHOOL OF CONSTRUCTION AND THE ENVIRONMENT

FALL 2019 HANDS-ON COURSES

Need to tool up for success with the BC Energy Step Code but have no time for training? The BCIT Zero Energy Building Learning Centre has developed a set of short duration courses to get you up to speed and on the right track.

OUR PROMISE

- Hands-on training in the BCIT High Performance Building Lab
- Industry expert instructors
- Compressed learning
- Up to 24 formal Continuing Professional Development (CPD) credits / course

YOUR GAIN

- **Get knowledge** on construction solutions
- **Get exposure** to a wide range of construction details on our teaching props
- **Get experience** using new and existing construction methods or materials, testing performance, and practicing strategies to meet the BC Energy Step Code
